3. The Developer has applied to the City for the construction of the necessary permanent water supply and distribution system to serve the above subject property. The Developer shall construct the necessary systems to serve the subject property at the expense of the Developer, and thereafter the City shall own and operate said systems. The Developer agrees to convey or sign any future agreements needed to fulfill the terms of this Agreement.

4. The design of the systems has been undertaken by the Developer, and once approved by the City, all construction of the systems shall be in accordance with the standard specifications and details of the City.

5. The Developer agrees that all costs and expenses incurred by the City in connection with review, approval and design of engineering, construction, inspection, and any other costs incurred in relation to this project shall be borne by the Developer, payable as follows:

- a. The Developer shall arrange for a letter of credit or other financial arrangement approved by the City to assure the completion of the project and the payment of all costs by the Developer in the amount of the construction contract price plus fifteen percent (15%) for contingencies prior to the execution of the construction contract. Any such financial assurances of completion must be with a financial institution with an office in the State of Maryland and the assurance shall not expire sooner than one (1) year after the acceptance by the City of the project. In any event, the arrangement with the financial institution shall provide that the City shall be authorized to withdraw part or all of the funds to pay the construction costs. If cash payment in advance is given, these funds will be put in an interest bearing escrow account, with the interest paid to the Developer by the City within a reasonable time after interest is credited to the account by the financial institution. The City may release the gross amount of periodic payments from the escrow account at the request of the Developer. Any unused portion of the construction advance will be refunded to the Developer after the construction has been completed and accepted by the City. If the cost of the construction exceeds the advance, the Developer shall pay the additional monies necessary to guarantee the completion of the improvement.
- b. The Developer will pay a design review fee for the review of the design plans for the systems, in advance, in accordance with the fee schedule attached hereto and made a part of this contract.
- c. The Developer will pay estimated inspection fees prior to the execution of the contract in accordance with the fee schedule of the City attached hereto and made part of this contract. Any additional inspection expense will be paid as invoiced and prior to conditional or final acceptance.

6. A construction permit shall be issued by the City before construction begins.

7. It is understood and agreed that the City may wish to install systems in excess of those required to serve the Developer's project. In any event, the City may request information from Developer's contractor of the cost to accomplish both purposes, and the City will pay the cost of the systems (over sizing) in excess of that needed to construct the systems necessary to serve the Developer's project.

8. The Developer shall pay the prevailing connection fees for both water and/or sewer service for each equivalent unit, as calculated by the City, to connect to any system prior to the approval of plumbing or building permits.

9. If the Developer complies with the above applicable conditions, the City shall approve the Contract to the Developer's contractor. If for any reason such approval is not made, all unspent and uncommitted funds of the Developer remaining in the hands of the City will be returned to the Developer.

10. In the construction of the systems:

- a. The City shall have the right to approve change orders relating to the construction of the system. A copy of such change orders shall be transmitted by the Developer. However, approval of change orders requested by the Developer will not unreasonably be withheld by the City.
- b. The City shall not be liable to the Developer for any delay or default or for any other reason in the construction of the project.

11. The Developer shall not have the right to assign this Agreement without approval of the City.
